

Fleet Management System

Stay connected with your vehicles in real-time

Gain total visibility of your vehicles, drivers and cargo.

Overdrive offers you cutting-edge telematics solutions that are far beyond your simple GPS. We gear you with the tools you need to stay on top of your business and maximize your fleet's full potential without compromising efficiency, productivity, and cost.

We make fleet data readily accessible so you are always updated on your vehicle's journey, anywhere, anytime.

Overdrive uses robust technology that can help you navigate your fleet with ease and get the best results that put your business on the right track. Having the right fleet management system gives you :

Boost Cost Efficiency

Analyze driving behaviors to eliminate wastage and unnecessary usage

Fleet Protection

Detect dangerous driving behavior to keep your drivers and vehicles safe at all times.

Accurate Data Analytics

Get real-time access to vehicular data and have valuable insights to make better business decisions

Smart Route Planning

Plan the most efficient routes for maximum fleet efficiency

Free Installation

No upfront set up cost, just a monthly subscription fee

We serve every industry, no matter the size of fleet, no matter the type of vehicle - manage it all in one centralized platform.

Why Overdrive's Fleet Management System is the right solution for you.

1 Know where your vehicles are at all times.

Capture your vehicle's journey and gain full control over your fleet operation in a centralized platform. Set up virtual fences to your advantage and push triggers when your drivers are out of bounds.

-  **Fleet Overview**
-  **Live GPS Tracking**
-  **Trip Monitoring**
-  **Geofencing Capabilities**
-  **Real-Time Alerts**

2 Safeguard your drivers and fleet safe.

Monitor risky driving behaviors such as harsh braking, cornering and, accelerating as well as protecting your vehicles from mechanical issues or even unauthorized usage.

-  **Driver Behavior Monitoring**
-  **Vehicle Diagnostics**
-  **Vehicle Statistics**
-  **Immobilizer**
-  **Video Live Streaming Capabilities**

3 Automate reports and streamlined fleet related process.

Generate track reports such as idling, speeding, location history, trip records, vehicle health and driver behavior to identify challenges and gain valuable insights to make better informed decisions.

-  **Live Reporting**
-  **Historical Playback**
-  **Meaningful Data Insights**

A fully integrated fleet solution that can help you make smarter choices, have an efficient business, and gain tangible results. Take advantage of our premium features.

Fuel Monitoring

Track your fuel level consumption and optimize fuel efficiency
