

Overdrive IoT Pte Ltd
Company Profile

About Overdrive

Overdrive is a leading Internet Of Things ("IoT") company in Asia that connects things, such as people, vehicles, facilities and other assets into a mesh network to offer real-time data on a cloud platform. Our platform is configured to optimally deliver business objectives such as real-time tracking and monitoring, exception alerting and command centre visualization.

Our technology is unique because of our open architecture that is able to ingest both in-house and partnered intelligence modules together and with an ability to tweak device-level firmware and connectivity — making our platform highly robust and scalable.

What We Do

Specialises in
Fleet Management
Assets Monitoring
Environmental Sensing
Vehicles Monitoring
Real Time Location System
and more.

Where Are We

Started in 2015, we have expanded and set foot in

Singapore

Malaysia

Belarus

Indonesia

Our Products

OverWheels For Vehicles

With this, you are able to fully control your fleet of vehicles. Find out where your vehicles are, their estimated time of arrival, how fast they are going, if they need to be serviced and even the temperature of on-board cargo. Beyond tracking, we improve efficiency and reduce cost.

OverGuard For Facilities

OverGuard is Overdrive's Real Time Location System. It is the guardian angel that watches over your assets, inventory, facilities, warehouses, buildings and everyone in it. Track, measure and analyse crucial data in your site on any device anytime anywhere.

OverPax For People

We provide end to end transportation solutions for moving people safely, effectively and efficiently. Equip your workers, children or even grandparents with the ability to send precise location information from anywhere.

Why Overdrive?

Highly Robust & Scalable

We enable any sensors and firmware to be connected to our platform which differentiate us uniquely.

Easy Integration

Reduce the time required to build a market ready solution or have the opportunity to customise solution based on your business requirements.

Detailed Analytics

We don't only build world-class solutions, we focus on end user and churn out data into meaningful insights. These valuable insights can help you shape the success strategy of your business.

Partners and Clients

At Overdrive, we recognize that our clients are our partners, and play a vital role in the creation of our world-class solutions.

We value our close relationship with all of them therefore we stay committed in providing high quality service and in giving them with the best support they need to efficiently grow their business.
