

OverPax by Overdrive

Moving People Safely

A people-centric solution designed for people on the move. OverPax equip workers, students, employees, and subcontractors with the ability to send precise geolocation information, status, health conditions and enable real-time movement tracking to ensure their safety, always.

Benefits

Safety

Set your mind at ease knowing your employees and passengers are safe and in good hands.

Security

Receive updates on your loved one's status, condition, and location, enabling immediate response in case of emergencies.

Efficiency

Stay in touch through any smart device anywhere, letting you enjoy hassle-free connectivity.

A Real-Time Location Tracker at its Core

OverPax's wide range of solutions focus the power of real-time GPS tracking into the hands of passengers traveling on school buses, company vehicles, people movement or even workers on site facilities to enhance safety – anytime, anywhere.

Employee Transportation Solution

Our award-winning Employee Transportation Solution offers complete visibility of your employees and provides a better way to account for your staff by enabling you to keep accurate passenger counts, track unauthorized passengers on board, and monitor driver behavior to prevent future accidents.

Monitor risky driving behaviors

Prevent abuse of company transportation

Provide accurate passenger information

Increase passenger safety

Prevent road accidents

Promote a stress-free commute for employees

School Bus Monitoring Solution

Overpax empowers schools, parents, and bus operators to keep a watchful eye on their students and passengers while commuting between homes and schools. Its real-time monitoring capabilities ensure effective management of transport operations and optimization of bus routes - putting safety as our topmost priority.

Safely transport passengers

Monitor driver's behavior and habits

Manage transport timing and minimize waiting time

Quick communication and transparent operation

Automated routing, planning, and scheduling of bus

Minimize downtime and unnecessary costs

Worker Monitoring Solution

OverPax empowers you to keep your workers well protected by setting preemptive safety measures and providing faster response time in case of emergencies. If no movement is detected over a period of time, a responder is alerted. Similarly, if the platform detects a fall, a notification will be sent, along with their exact location. This enables faster response in potential emergency situations involving any worker in distress.

Detect any impact caused by falls, slips or falling debris

Send real-time alerts in case of emergencies

Monitor each worker's movement within the facility

Monitors people counter, movement and location

Keep workplace up to standard to prevent shutdowns

#Locator: Movement Monitoring Solution

OverPax enables you to enhance social distancing and ensure these measures are adhered to most effectively. It is as simple as a Bluetooth wearable linked to a mobile app that allows any organization to obtain information on any social movement within a specified area.

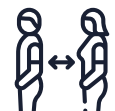

Receive updates on people movement, activities, and location

Ensure people are safe within a designated area

Promotes safe workplace environment

Aids in safe social distancing and contact tracing

With OverPax, you are in good hands.

Hassle Free Connectivity

Overpax is a low cost, ultra-low power system that is compatible with all smart devices and provides commuters real-time GPS location data to the people who care about them – without affecting the battery life or usage of their mobile devices.

24/7 Access, Real-Time Location Services

OverPax is designed as a simple, elegant solution that simply works – whenever and wherever it's needed. With 24/7 access to real-time location data, even overnight drives are covered by OverPax's unrivalled GPS tracking abilities.

Your commuters' safety is our priority

OverPax focuses on keeping workers, students, employees, and subcontractors safe through real-time GSP tracking and people monitoring – all across Singapore

Provide passengers the extra security they need with OverPax
Enhance safety tracking with Overdrive today!
