

Employee Transportation Solution

Monitor your employees' rides with ease

A comprehensive mobility solution to power your employee's day-to-day commuting needs. Our platform takes it up a notch by digitally transforming employee transport management to provide businesses with an efficient, safe, and transparent operation, allowing them to be in the lead and foster a better and more productive workspace.

Business Challenge

Employee transportation services are now part of staff benefits and can be attractive incentives to enhance safety and boost employee morale. However, most companies that offer bus transport services lack the platform to track the employees taking their bus. They have to manually keep track of their employees and when an incident occurs, records show inaccuracies on the list of passengers onboard.

Managing and overseeing worker's travels is a demanding task that calls for a more systematized approach. The solution aims to overcome issues with,

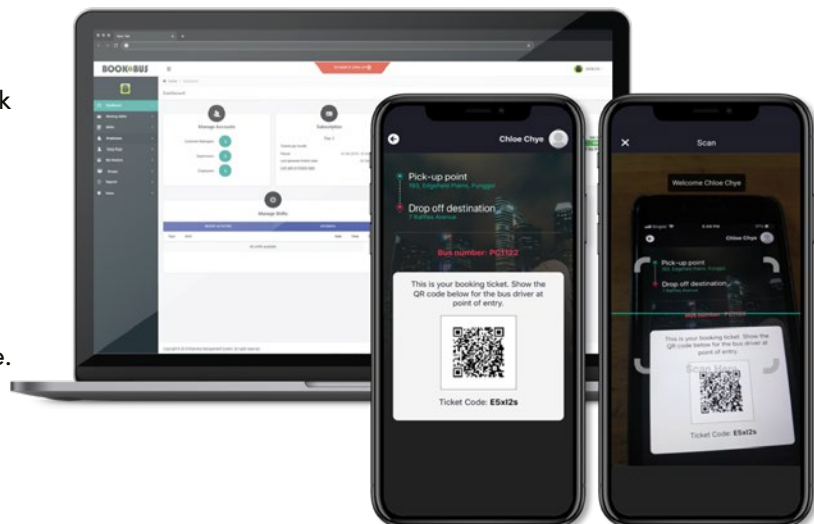

- Passenger safety and security
- Passenger information inaccuracies
- Risky driving behaviors
- Road accident prevention

A Smarter and Safer Employee Commute

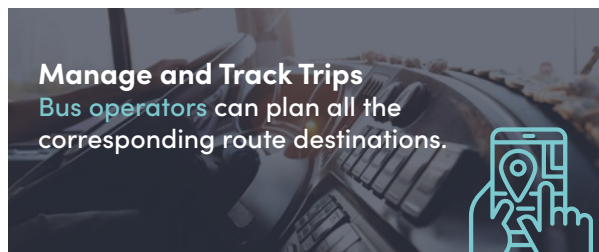

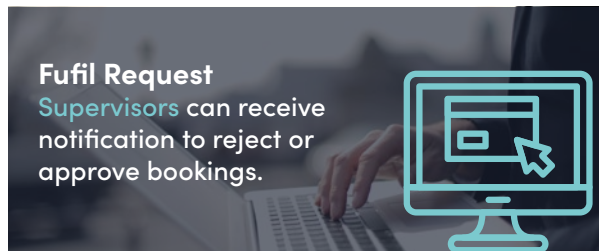

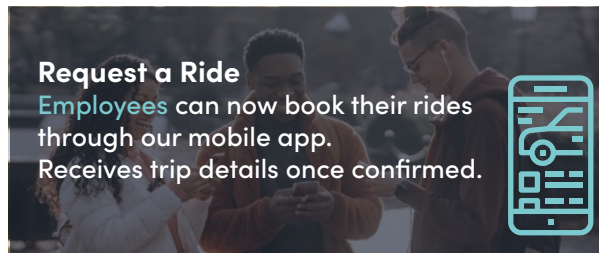

Overdrive's award-winning Employee Transportation Solution offers complete visibility of your employees and provides a better way to account for your staff by enabling you to keep accurate passenger counts, track unauthorized passengers on board, and monitor driver behavior to prevent future accidents.

It is designed to ease the commute of employees and provide you real-time data insights into the bus utilization, trip information, drivers behavior and geofence assignments so businesses can capture every aspect of both employees and drivers' commute.

How It Helps

Our transport management solution gives you a seamless customer experience as it captures three main users; **Employees, Supervisors, and Bus Operators.**

Meet all your transportation needs with these state-of-the-art features:

Location Tracking

Get real-time updates on all ongoing trips in one centralized platform.

Notifications & Alerts

Be notified instantly of any change in bookings or trip schedules.

Reporting & Analytics

Get detailed insights into the bus utilization, trip information, events and more

Driver behavior

Monitor risky driving behavior such as harsh braking, cornering and, accelerating.

Geofencing capabilities

Plan routes with pick up and drop points that are most convenient for employees

Rider Identification

Keep track of employees taking the transport and identify unauthorized passengers

A smart move to drive your business ahead.

Overdrive helps you manage your resources better and ultimately take the stress out of commutes.

Improve Productivity

As bookings are made easy, drivers can auto plan routes, anticipate schedules, and maximize productivity.

Enhance Safety

Get accurate manifest of passenger onboard and identify unauthorized use of company transport

Cost Saving

As data is readily available, owners can forecast daily bus services, observe trends, maximize bus capacity, and reduce wastage.

Better Workplace Environment

Promote a stress-free commute and keep your employees safe.

Make the right choice and enhance your business with our employee transportation solutions.
