

OverGuard by Overdrive

Track your equipment and keep your facility safe

Keep a live track of your asset conditions and their activities. Accurately track equipment, assess facility conditions and even monitor toilet consumables and usage patterns in real-time. OverGuard grants you the power to end-to-end visibility over your most valuable assets anywhere- even in locations where GPS is not available.

Benefits

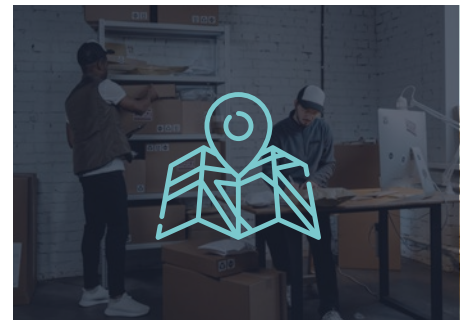

Enhance security and productivity with OverGuard.

Keep an eye on your assets and ensure they are secured.

Real-time analytics on your entire operation.

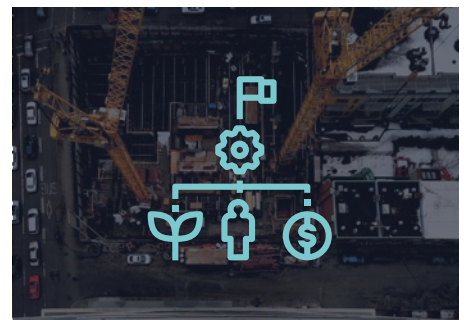

Pinpoint accurate asset location and monitor its status and condition at a glance.

Monitor movements of forklifts and lifting trucks to optimize usage and enhance worker safety.

Safeguard equipment at all cost and prevent potential theft or loss.

Improve resource availability and get full knowledge on equipment usage.

Whether you are running a production facility or monitoring equipment, OverGuard grants you the power to gain full control over your assets anywhere- even in locations where GPS is not available

Seamless Data Location Capabilities

We offer a variety of sensors and devices that works seamlessly with any application.

Equipment Monitoring

Get updates on equipment location, usage and conditions to avoid loss or misuse. Detect any signs of malfunction to schedule for repair and even increase equipment life cycle.

Smart Toilet Monitoring

Monitor toilet consumables and usage patterns in real-time. Optimize schedule cleaning resources where they are most needed without the additional labor and costs.

Inventory Monitoring

Have end-to-end visibility on inventories to accurately keep track of stock counts, avoid lost and misplacements, improve customer service and reduce inventory carrying costs.

Environmental Monitoring

Assess site and facility conditions such as humidity, temperature and air quality to maintain a suitable working environment for workers, assets and equipment.

Smart Airport Monitoring

Accurately tracks baggage, equipment galley carts, and other valuable assets within airports. Monitor its location, movement and usage to avoid delays and mishandling.

Smart Healthcare Monitoring

Save lives and time! Have full visibility on critical medical assets such as patient blood bags, IV pumps, heart monitors, beds, wheelchairs, equipment and more.

*Get ready to explore a completely new dimension of facility monitoring.
Integrate OverGuard into your operation today.*

Who Are We

Overdrive is the leading real-time asset monitoring IOT company in Asia that provides end-to-end IoT solutions and automates data sensing of various types of assets within a business ecosystem, from vehicles and machinery to facilities and people – all under one roof.

What We Do

Specialises in

- Vehicles Monitoring
- Airport Management
- Vessel Tracking
- Heavy Machinery Monitoring
- Smart Hygiene
- Environmental Monitoring
- Sustainability Solution
