

# Car Sharing Solution

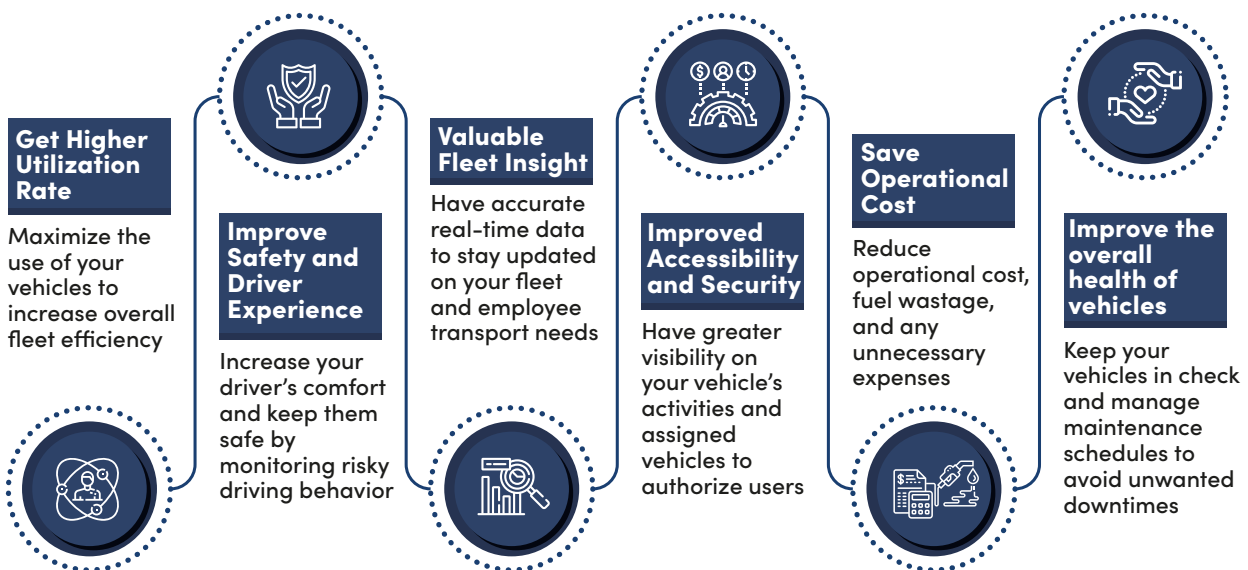

## Revolutionize mobility into a sharing-ready fleet

A seamless end-to-end fleet sharing service designed to take away the complex task of managing your team and assets, enable you to increase profitability and scale up your business. We transform vehicles into a sharing-ready fleet, to improve vehicle performance, downturn maintenance costs, reduce fuel claims, ensure smooth scheduling, encourage good driving behaviors, and more.

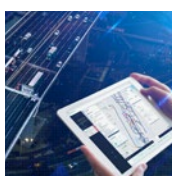

### Business Challenge

Most car-sharing organizations are facing soaring fuel prices and higher maintenance costs. In addition, they receive overwhelming booking requests daily and lack the platform to accurately track the location and availability of their vehicles. Providing a seamless user experience can be difficult and often result in an unexpected rise in operational cost.

### Key Benefits

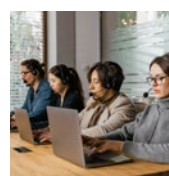

## Revolutionize mobility with Overdrive's powerful solutions.

### Fleet Management System

Optimize your fleet's fullest potential. Have visibility on overall vehicular activities and access to valuable insight needed to rapidly scale up your business.

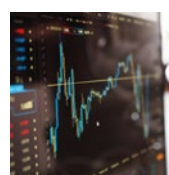

### User Management

Assign multiple users and user category to meet your business needs.

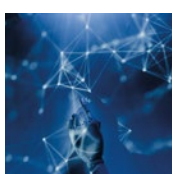

### Finance Management
